NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE NEW YORK TRAGEDY.

The character of Stanford White who was shot and killed by Harry Thaw in the Madison Square (New York) roof garden last Monday night, continues to be a chief feature in this perhaps the greatest of New York's sensation.

Anthony Comstock in an interview yesterday said:

"Thaw came to me about 10 days ago and told me stories of Stanford White of a very startling character and asked me to investigate, which I did. I tried to hire a room or apartment in the tower of Madison Square Garden, but was unable to do so. I tried in other various ways to get evidence against the man, but he must have received some inkling as to what was going on, as he left off coming to the tower. I understood that he hired rooms elsewhere, and we were unable at the time to locate them. Mr. Thaw seemed very much put out when I told him we had not been able to accomplish much or really anything, but that I could no doubt do so if given enough time."

A sensational development of the day was the statement by the district attorney's office that White went to the Madison Square Roof Garden on Monday night for the purpose of keeping an engagement with two of the chorus girls and getting an introduction to a new one.

H. E. Lynke, a lawyer, called at the coroner's office yesterday with an order from Mrs. Stanford White and obtained all of the jewelry and personal effects found on White when he was shot. Chief among these was a heavy solid gold ring said to be worth not less than $3,000. In bas-relief was protrayed two nude women and a nude man. It is said to have been one of the choicest articles in Mr. White's vast collection.

As was stated in yesterday's Gazette, Stanford White's life was shortened only two years, at the most, by Thaw's act last Monday night, in the opinion of the physician who performed the autopsy upon his body. The result of the autopsy, which was made public yesterday, shows that White was a sufferer from Bright's disease, incipient tuberculosis and fatty degeneration of the liver. The physician declares that White could not have lived more than two years in view of his physical condition, even had he not been struck down by Thaw's bullets.

It has been learned that previous to Thaw's marriage with Miss Nesbit he was forced to compromise a suit which she was about to enter against him. It is also said that Stanford White had urged Miss Nesbit to take such action. After the suit had been compromised and Thaw married to the young woman, his hatred of White became intense.

Little Girl Assaulted by Negro.

Charged with having assaulted Elsie West, a girl of 12 years, who had been sent out by the Children's Aid Society, of Oxford, Pa., to spend a summer in the country near Red Turkey, Md., Noble Spencer, a negro, yesterday barely escaped with his life from an infuriated mob which was scouring the country in search of the man who had committed the brutal outrage. Only the cunning of Constable Harry Hall enabled him to baffle his pursuers until the negro was landed safe in the Chester county jail, at West Chester, Pa.

The crime was committed at Greist's Fording just on the Mason and Dixon line Montillion Brown, ex-Commissioner of Lancaster county, was riding near the ford when he heard someone moaning in the bushes. He investigated and found a girl lying there more dead than alive. She was unconscious and there was every evidence of an assault. Brown took her at once to Rising Sun, where she recovered her senses sufficiently to tell that her assailant was a negro, but could give no description of him. Immediately armed posses began scouring the country for the assailant, but without success.

Yesterday morning, however, the girl was able to describe the criminal, and as a result Noble Spencer was arrested while working within a quarter of a mile of the place where the outrage was committed. It is believed that he had returned to work immediately after the assault and remained there while the posses were looking for the perpetrator.

When he was arrested Hall says the negro made no resistance, and confessed to having committed the outrage, giving as his only excuse that he "did it because he felt like it." Hall was fearful lest those who were thirsting for vengeance should discover his capture, so he spirited Spencer away will all possible haste.

Not until they had reached Oxford did the Nottingham residents learn of the arrest. Every effort was made to prevent the criminal reaching jail, citizens even going so far as to telephone to residents of Oxford asking them to hold the prisoner until they could get to him.

A mob quickly gathered in that place and surrounded the train, cursing and threatening the alleged criminal. Cries of "Lynch him! Lynch him!" were heard everywhere. Women spat upon the negro through the car window as he cowered in fear by the side of the constable. Before the feeling reached a crisis, however, the train pulled out and Spencer was safe. The leaders of the posse at Nottingham are chagrined at Spencer having slipped through their fingers. It is said they had made arrangements for burning him at the stake. Little Elsie is still in a pitiable condition, but will probably recover.

Long Tennessee Fight.

For twenty years W. L. Rawls, of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at E. S. Leadbeater & Sons', Druggists.

The many imitations of DeWitt's Witch Hazel Salve that are now before the public prove it the best. Ask for DeWitt's. Good for burns, scalds, chaffed skin, eczema, tetter, cuts, bruises, boils and piles. Sold by W. F. Creighton & Co., 401 King street.

Making It Easy and Safe.

This is the easiest store in Alexandria to get money back from in case you want it. In some Washington stores, as you doubtless know, the policy is to discourage exchanges and refunds. We pride ourselves on making it easy for you. We ask no questions, make no comments. It is done as a matter of your right, not as a favor.

Alexandria Gazette AND VIRGINIA ADVERTISER

FRIDAY EVENING, JUNE 29, 1906.

THE KILLING of Stanford White by Harry Thaw in New York last Monday is bringing volumes of the private history of the slayer and his victim to light which are read with avidity. It is said that White spent about $200,000 a year on his appetite and Thaw in the neighborhood of $80,000. The latter, a spoilt child, was reared amid the greatest affluence. He soon developed into a cigarette fiend, and he imagined his mission in life was to have to kill time and squander money. White, while practising a profession, was of a type who see nothing in life but a swirl of sensuality. The last sound that entered his ears was the voice of an actress in the Madison Square Garden. The murder has removed the lid from the social life of a certain class in New York, and the details are sad to contemplate. When Thaw shall have been placed on trial supplementary volumes will be in evidence. A propos of the above, Mr. George Bernard Shaw, the author and dramatist, in an address in London yesterday said: "A great proportion of the people in society are rascals; in fact we are all more or less rascals."

DURING the first half of the present year a total of about 2298 miles of railroad were constructed, which fact leads the Railway Age to declare that the record for the year will exceed those made in 1902 or 1903. This means that the total railway construction for the year will approximate 6000 miles of roads, as the record for 1903 was 5786 miles, and for 1902 5684 miles. With the exception of 1902 the record for the half year exceeds any made during the part 15 years. The first half of the year 1902 saw 2814 miles of track completed. In a recent issue of the same journal it was stated that there were fully 13,000 miles of rail way under construction in the United States. It is now stated that additional contracts have been let which will add many hundreds of miles to the total number of miles being built at the present time. According to the Age, the number of railways in the hands of receivers continues to decrease and the numbers have been more than offset by the number which have been taken out of receiverships by foreclosure or by friendly reorganization without sale.

THIS COUNTRY is in for a tariff war with Germany, and it will do the farmers and manufacturers no good. In the interests of harmony Germany consented to continue her old tariff on imports from this country, hoping that during the temporary arrangement Congress would negotiate a commercial treaty with her or grant certain relaxations of the customs administration law which her exporters are exceedingly anxious to obtain. Congress is near adjournment, and there is not the least indication that the Senate intends to give a thought to the improvement of the commercial relations with a country which in the past eleven months has imported $221,170,269 worth from the United States, an increase of nearly forty million dollars over the corresponding portion of the year before. There is plenty of time for political speeches, but no time, or perhaps no disposition, to act on a vitally important matter of the nation's business.

AN INTENSELY hot wave has made itself felt over a large area of country during the past forty-eight hours, and the Weather Bureau sees no immediate relief in sight. There have been heavy rains with much thunder and lightning, but they only temporarily lowered the temperature. In fact the atmosphere in most cases has become more oppressive after the sky has cleared. This is a season when extra care should be taken by all persons, especially those compelled to expose themselves to the sun's rays. Caution should also be exercised in diet. Many edibles are now in season which can be eaten in moderation, but care should be taken to avoid everything stale or suspicious either in the line of meat, fish, vegetables or fruit. The dangers of many canned goods has been shown by recent investigations in Congress; hence warnings concerning such may be unnecessary.

From Washington.

[Correspondence of the Alexandria Gazette.]
Washington, June 29.

President Roosevelt is making preparations to leave Washington for Oyster Bay just as soon as he can after Congress adjourns. If the gavels of the presiding officers fall for the last time this session before tomorrow evening, it is possible that the President will be aboard his special train by midnight and will be in Oyster Bay by 10 a. m. Sunday. Secretary Loeb has given orders for the train to be placed in readiness and it will be the work of just a few minutes for the train crew to be assembled and the locomotive coupled on with steam up. If the President leaves Saturday or Sunday night his special will go as the first or second section of the midnight train and he will reach Jersey City by 7 o'clock the following morning. A special tug will convey him from Jersey City to Long Island City, in order to avoid the ride across New York, with its discomforts and possible dangers, and by 8:30 or 9 o'clock, he will be aboard the special Long Island train which will cover the last steps of his journey, a distance of 33 miles, in about 50 minutes. If Congress should get into a quarrel, and run into next week, the President will, of course, remain in Washington as long as the legislators do. If any event, however, he plans to leave on the evening of the day Congress adjourns. It is the President's intention this year to take the first real vacation he enjoyed since the summer of 1903. Accompanying President Roosevelt on the special train from Washington will be Secretary Loeb, Assistant Secretary Latta, Executive Clerk Netherland and others. The President's horses were sent to Oyster Bay yesterday.

The days of legislative "feverish activity" are at hand. Congress, today and tomorrow, will give the country an object lesson of what it can accomplish when it really wants to. Nothing seems to threaten the success of the plan to let Congress adjourn tomorrow afternoon. A resolution providing for such adjournment at 3 o'clock has for several days been reposing in the pocket of Representative Dalzell. But it is not to issue forth unless every possibility of a slip twixt the cup and the lip shall have been eliminated. When the conference reports are in such shape that failure of the legislation upon which Speaker Cannon insists is beyond the pale of the people, the Dalzell resolution will be adopted by the House. Not until then, says Speaker Cannon. He'll be blanked if he lets the Senate get him into a corner, he asserts. The only real obstacle yet existing is the meat inspection provision of the agricultural bill. The conferecs have agreed on all but the question of cost and dating the labels. The House has practically issued an ultimatum on the subject—the government to pay the cost and the labels not to be dated. Once more the question has been referred back to the conferees. As soon as the Senate can be brought to recede the decks are clear. The public building bill was passed by the Senate last night and will go to conference today. An agreement will be reached in the shape of a compromise some where between the amounts appropriated in the House bill and those added or deducted by the Senate. The conference report on the railroad rate bill has been approved by the House and awaits today's action of the Senate. The general deficiency bill, the last of the supply bills, passed by the Senate yesterday, comes back to the House today. The sundry civil bill conference report is yet to be acted on, but the $1,325,000 appropriation for the Jamestown Exposition, which it contains, is practically assured. The pure food bill remains to be adopted and final action has not been had on the naturalization bill. It seems like a formidable array, but it does not take much time to dispose of matters when the real rush is on. Unless an unforseen difficulty arises, adjournment tomorrow is assured.

The conferees on meat inspection again came to a disagreement today, but assurances have been received that the Senate will recede and allow the bill to be passed so that the government will bear the cost of inspection and the labels will not be dated. With this bill out of the way, House leaders now predict adjournment late tonight.

In the Senate this evening Mr. Bailey took exceptions to Mr. Tillman's utterances deorgatory to lawyers during a discussion of the anti-pass provision in the railroad rate bill. Mr. Tillman in reply said it was the lobbying attorney he was after.

Washington, June 29.

SENATE.

The Senate today adopted a resolution directing the Interstate Commerce Commission to investigate the block signal system and automatic appliances for the control of railways and to report recommendations to Congress.

Mr. Dick presented in the Senate today a resolution providing that until Congress shall otherwise decree the Isle of Pines rightfully belongs to the United States, and directing that its government be vested in those persons selected by the President for that purpose. It was referred to the committee on Pacific Islands, and Porto Rico, of which Mr. Foraker is chairman.

When Mr. Tillman called up in the Senate this afternoon the conference report on the railroad rate bill, he announced that he had not attached his signature to it, and that he would not do so. He assigned as a reason the refusal of the other conferees to include pipe lines in the provision requiring the divorce of production and transportation. "I think the influences back of this are sinister, he declared. He said he would vote for the report because under the rules a separate vote could not be had on the pipe line provision, which he characterized as "outrageous," and forced into the bill "by the infamous monopoly" the standard oil. He said that for a time the big stick and the pitchfork had been aligned together against the oil trust, but when the pitchfork got to the firing line, tt saw the big stock's coat tails hustling toward the rear, and the last seen of the president was a sliding on all fours to get between Father Allison's legs." He said that otherwise the rate bill was a good one, and he gave the President full credit for securing such legislation. "He drove it through Congress, as he drove the meat inspection rough shod through the House," he exclaimed, "because public opinion was behind him. Public opinion would be behind him in a fight against standard oil, if he only made it."

The Senate this evening agreed to the conference report on the railroad rate bill and all that is necessary for it to become a law is the President's signature as the bill has already passed the House.

HOUSE.

The House began its proceedings today with a row between Representatives Dalzell, of Pennsylvania and Cooper, of Winconsin, republicans. Yesterday Cooper opposed a rule brought in by Representative Dalzell indirectly reflecting on Mr. Dalzell's purposes. In the Record this morning he had modified the language employed by him yesterday.

Representative Dalzell today denounced the proceeding, which he branded as "dishonorable," and "indecent," not "manly," nor "becoming."

Mr. Cooper replied that he did not mean to impugn Mr. Dalzell's motives, but that he had no apology to make. He charged that Mr. Dalzell's evident animosity may be attributed to his opposition to Mr. Dalzell's pet measure, the Lake Erie & Ohio river ship canal bill.

The motion of Dalzell to expunge Cooper's remarks as recorded and substitute actually delivered, prevailed on a rising vote 66 to 43.

The House today non-concurred in Senate amendments to the public building bill, and sent the measure to conference. The conferees on the part of the House are Representatives Bartholdt, Burleigh and Bankhead.

Serious Charge.

Jennie Irwine, sixteen years old, is at the First precinct police station in Washington, as a United States witness in the case of Joseph J. Weaver, thirty-two years old, of Brickhaven, Alexandria county, who is locked up in the police station on a serious charge involving the girl's presence in an immoral resort. When the girl, accompanied by Weaver, appeared in the house yesterday, the police were notified. After questioning the girl and learning that, according to her statement, she supposed she was in a hotel, she and Weaver were taken to the station. But two years in this country, Miss Irwine is a pretty Irish girl, with an innocent face and fine figure. She said: "I was born at Belfast, Ireland, sixteen years ago. Two years ago, while working in a hotel in my native city, I met a man from Orange Court House, Va. I told him I would like to cross the ocean. He paid my passage and got work for me in his town. I stayed there until eight months ago. While there I met Weaver. We met frequently and he seemed to like me. Eight months ago I got another job and went to Brickhaven. Weaver still continued to visit me. But then a change took place. He did not seem to care for me as much as formely. A few weeks ago he suggested I try hotel work at Alexandria. As I had been used to such work, I consented, and we started from Brickhaven yesterday. Instead of going to Alexandria we came to Washington, and went to the house where I was found. As soon as I entered I was asked what I wanted to drink. I became suspicious and refused to stay. The police were summoned, and I was brought here."

Weaver denies that he lured the girl to the house, he asserting that she knew the nature of the place.

Four Persons Killed.

Four persons, two of them a bride and bridegroom of a day, were killed last night on the Philadelphia and Reading Railroad at Gwynedd, about eighteen miles from Philadelphia, by an excursion train, which ran down their carriage at the station Two of the victims were Thomas Jaquett and his wife, of North Wales, Pa. The names of the young couple have not yet been learned. Mr. Jaquett was a cousin of Councilman Joseph Hunter, of Philadelphia.

Mr. and Mrs. Jaquett, who had been married only Wednesday night and were spending a portion of their honeymoon at North Wales, went driving with their guests yesterday evening. As they approached the railroad crossing at Gwynedd station an excursion train from Menlo Park came rushing down the tracks at the rate of forty miles an hour.

There are no gates at the crossing, and the occupants evidently expecting the train to stop at the station, attempted to cross the tracks in front of it. The locomotive struck the carriage with terrible force, shattering the vehicle and throwing Mr. and Mrs. Jaquett and their guests some distance. All were killed instantly.

The two visitors had only arrived at North Wales yesterday, and had not been introduced to any of their hosts' friends. In consequence their identity was unknown to any of the residents of the little country town.

Today's Telegraphic News

Plea of Not Guilty.

New York, June 29.—Harry K. Thaw pleaded not guilty this morning to the indictment charging him with the murder of Standford White, on the roof of Madison Square Garden.

His counsel, former Judge Olcott, made a formal request of Judge Cowing, before whom Thaw was arraigned, to withdraw the plea by next Tuesday in order that any motions might be made or any other plea entered.

The request was granted, and Thaw remanded back to the Tombs. The young millionaire looked in better physical condition today than at any other time since his incarceration. His wife, Evelyn Nesbit Thaw, did not appear in court, nor did she visit her husband in the tombs this morning.

One of the strong claims which Thaw's lawyers will make at the trial is that Mrs. Thaw was drugged by White and that knowledge of this atrocious fact had operated to deprive Thaw of his reason temporarily. "No jury will convict me of any crime" is Thaw's persistent statement to his counsel, "when they hear the truth. I killed White because he ruined my wife. I am not crazy."

The State's prosecutor is investigating today many stories concerning Stanford White's life which involves many prominent people. It is reported that Stanford White was largely in debt when he died because of his extravagances. To one young member of the smart set White is reported to owe $30,000 and to other associates other large amounts of money. Friends of White say he spent money like water in his high living and that his wife will be left only $200,000 life insurance. Mrs. White is said to have a large private fortune, Former Judge Olcott said today that he had received more than a thousand letters attacking White's character. Many of these letters were from women.

Lawrence White, only son of Stanford White, the murdered architect, denied emphatically today that he had made any vow of vengeance against his father's slayer.

Triple Tragedy.

Fairmont, W. Va., June 29.—Mannington, 18 miles west of here, on the Baltimore & Ohio Railroad, was the scene of a gruesome triple tragedy this morning. James L. Coad, a former resident of that town, returned last night, and learning that his wife was living with Samuel Hugh Williams, went to the house and murdered both. He then shot himself, but at nine o'clock this morning was still alive. Coroner Amos was notified early this morning of the triple tragedy and at once went to Mannington. He was informed that the bodies of the dead were locked in the room, where they were slain, and that everything would await his arrival. Coad formerly worked in the oil fields of which Mannington is the centre. He had been out of the State for some time. It is presumed he did not know that during his absence his wife had obtained a divorce and remarried.

Murdered and Robbed.

Cincinnati O., June 29—Lying in the alley in the rear of Frank Moeller's saloon, 309 west Sixth street, about 1.15 this morning, the body of John Armstrong, of Allegheny, Pa., an employe of the Otis Elevator Works, Pittsburg, and stopping at the Princess, was found by the police. He had been murdered and robbed. An examination showed that his neck had been broken. Andrew Schultz who was with Armstrong earlier in the evening, told the police that Armstrong and himself had a fight with several negroes, but he did not remember much about it. Several negroes are under arrest and among the number the police hope to find the persons who caused Armstrong's death.

The firemen were called in but they could not pump out the water quickly enough and all printing was greatly delayed. It is estimated that 100,679, 040 tons of water fell during the storm This is a record that has been equalled only thrice in the history of the city

Russian Douma.

St. Petersburg, June 29.—The Douma today took up the debate of the bill providing for freedom of assemblies. One of the social democratic deputies declared that the bill was useless inasmuch as Russia is on the eve of a revolution.

M. Groduscul, replying to this speech, admitted that it is true that the outcome of the present situation cannot be foretold, but suggested that the legislative debates offered a legal substitute for revolution.

Afterthe Tobacco Trust.

Terre Haute's Mayor Impeached.

Terre Haute, Ind., June 29.—The City Council Thursday night by a vote of six to three, under impeachment proceedings instituted by five Councilmen found Mayor Edwin J. Bidaman guilty and removed him from office, handing over the reins of the city government to City Comptroller Frank M. Buckingham. The impeachment of Mayor Bidaman is the climax of a year's effort directed toward the enforcement of the laws, Terre Haute being known for years as a wide-open city. About six months ago an effort was made to remove him, and a sensational trial was had, resulting in a vote of five for impeachment when six votes were needed.

Killed in Collision.

New York, June 29.—One man was killed and three others were badly injured in a collision between an automobile and a trolley car which occurred at Troy avenue and Pacific street, Brooklyn, early today. The dead man is Herman Schnibbe, a wealthy grocer, of south Third and Berry streets, Williamsburg. He sustained a fracture of the skull and died in a few minutes. The injured are Herman Miller, Samuel Olden and Charles Hutchins, all of Williamsburg. Schnibbe and his friends were returning from Coney Island when the accident occurred.

New York Stock Market.

New York, June 29.—The improvement which was in full swing in the stock market yesterday afternoon has not been maintained in the dealings so far today. The chief reason for the decreased strength is that room traders believe that the most urgent buying on the late rally was due to covering of shorts and not any accumulation of stocks for long account. The sentiment of the room and the street is almost wholly bearish. Price movements were all downwards and the high rate for call money this morning helped traders to depress prices, but on the low levels reached business slackened and at times the market was extremely dull.

The Longworths at Court.

A dispatch from London says that yesterday's court was made notable by the presentation of Mr. and Mrs. Nicholas Longworth. The royal circle was numerous, and the procession of the king, queen, and officers of State was exceptionally brilliant. The king's breast glittered with orders, and the queen wore beautiful jewels.

There is no doubt that interest in the court for a majority of those attending centered chiefly in Mrs. Longworth. She was the cynosure of all the English court dames, not excepting the royal princesses. Etiquette and "the repose which stamps the caste of Vere De Vere" prevented conspicuous quizzing, but the curiosity of those who had not previously met President Roosevelt's daughter was expressed as far as possible within the limits of society's precepts of decorum.

Mrs. Longworth passed through the ordeal with great self-possession, and received the special notice which the king and queen and other members of the royal circle markedly bestowed on her with modest ease.

After the presentation King Edward and Queen Alexandra passed to the supper room and immediately sant for Mr. and Mrs. Longworth to join them.

Mrs. Longworth wore her wedding gown, with a diamond ribbon at her throat, and her hair was simply dressed.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give you One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggies, 75c.

Escaped from Penitentiary.

Walter Stiars, a white convict, who disappeared in the Richmond penitentiary June 15, made his escape Wednesday night after having concealed himself during the entire interval under the floor of one of the shoe factories. By some means he had accumulated a supply of provisions in his place of concealment. He escaped by cutting a hole in one of the foundation walls. The authorities were satisfied that he was hiding within the institution, but all efforts to find him were unavailing. Stiars waited patiently until the watch which had been placed on the wall for the purpose of preventing his leaving the building had been withdrawn, and then he cut his way through the walls. The man evidently had accomplices, who apprised him in his hiding place of the withdrawal of the guard.

Death of a Mexican Veteran.

Mr. John R. Gunnell, a veteran of two wars, died at the home of his nephew, Mr. Geo. W. Gunnell, near Great Falls, the latter part of May. We regret that we did not receive notice of his death at the time.

Mr. Gunnell was well known throughout that section of the county. So far as we know he was the last survivor of Capt. Fairfax's company which was recruited largely in this county, and which served under Gen. Taylor, in Mexico. Mr. Gunnell also served in the Confederate army during the civil war. He was about 81 years of age, and was held in high esteem by all who knew him. —[Fairfax Herald.

Thanked the President.

Senators Daniel and Martin, of Virginia, called on President Roosevelt yesterday to thank him for his interest in the Jamestown exposition, the appropriation for which has been permitted to remain in the sundry civil bill by both House and Senate, and which will become available upon the signing of the bill by the President. The Virginia Senators also invited the President to attend the unveiling of the monument to General Mercer at Fredericksburg at a day to be selected. The President expressed pleasure at Jamestown having been provided for, but said he would not be able to accept the invitation to attend the Mercer exercises.

The House yesterday passed a bill appropriating $20,000 to raise Commodore Perry's flagship Niagara, which was sunk in the battle of Lake Erie, and to place it upon the grounds of the Pennsylvania Soldiers' and Sailors' Home at Erie.

Wedding at Newport News.

One of the prettiest weddings of the season occurred at the Trinity Methodist church at 7:30 o'clock Wednesday evening, when Miss Carolyne Wilkinson Crump, daughter of Mrs. Louise A. Crump, of this city, and Mr. Joseph Roland Goode, of Alexandria, were married. The ceremony was performed by Rev. W B. Beauchamp, pastor of the church.

The church decorations were very handsome, the floor being covered with canvas while the altar was decorated with potted plants, ferns, palms and daisies. The bride was gowned in a princess dress of white liberty satin, trimmed with Mexican lace and carried a shower bouquet of bride's roses. Her veil was caught with a pearl brooch, the bridal gift of the groom. She was attended by her sister, Mrs. H. C. Richardson, of Richmond, as matron of honor, who wore a costume of white radium silk and carried pink roses. Miss Sallie Lipscomb, of King and Queen county, was maid of honor. She wore a costume of white point d'esprit over taffeta. The bridesm ids wore costumes of white chiffon and were: Misses Alberta Lewis, of Norfolk; Ethel Goddins of Richmond; Julia Fitzpatrick, Florence Haxall and Bertha Crump, sister of the bride. Interfered with the Officers.

About half-past one o'clock this morning Officers Beach and Lyles and Special Officers Mullin and Simpson saw two strange men at the entrance to the alley on the north side of King street, between Fairfax and Royal. The officers approached them and in answer to questions of the former the strangers said if the officers would accompany them they would conduct them to their lodging which was in the upper story of a building on the square. The officers went with the men and were conducted into a room where among other things a number of empty beer bottles were to be seen. A man who gave his name as Oskar Haapakoski, who was in charge of the rooms in the upper story, became abusive to the officers, who explained the object of their visit and retired. Three-quarters of an hour later Haapakoski, who had dressed in the meantime, appeared on King street and accosting the officers renewed his abuse of them, when they put him under arrest. Haapakoski was brought before Justice Caton in the Police Court this morning. He said he was working on a bridge of the electric railway near Mount Vernon, and that he had been in Alexandria about four months. He was fined $5, which his wife paid.

The concert was given by the Naval Gun Factory Band, Prof. J. G. Moody, director, of Washington, assisted by Mr. William Thornton, in illustrated songs, and was considered the musical treat of the season. The programme was as follows: March, "Old Colonial," R. B. Hall; selection, "Wang," Thomas; concert waltz, "Wedding of the Winds," John T. Hall; medley overture, "Bits of Remicks Hits No. 2," Lamps; excerpts from opera "Tl Trovatore," Barnhouse; illustrated songs, "The Man in the Overalls" and "On the Wedding Morn," Wm. BOOKS AND STATIONERY.

New Books for Summer Reading

"The District Attorney,"
BY WILLIAM SAGE.

A strong, timely, skilfully written novel of present day political and financial life in which a son of high ideals is arrayed against his father, the head of a powerful combine.

"Woman's Wit,"

What a girl's wit, sharpened by American education and backed by western independence, can accomplish in the field against powerful conspirators for whom the stake is a throne and the lives of men are mere pawns, is the theme of this story. By her cleverness, resource and courage she makes her way through a succession of adventures as startling as they are novel and mysterious.

"The Builders,"
BY WILLIE G. EMERSON.

A thrilling story of Western life. The discovery of a gold mine is the central theme, and about the heroine who assists in the discovery, is woven a beautiful story of love's conquest.

"The Race of Life,"
BY GUY BOOTHBY.

A vigorous story of the Australian bush told with all the wealth of Guy Boothby's picturesque and exciting language.

"Susan Clegg and Her Neighbor's Affairs,"
BY ANNIE WARNER.

The inimitable Susan Clegg and her neighbors, including Mrs. Lathrop, are even more irresistible in these new stories than in the first series, which gave the author a reputation of the highest rank among American writers and humorists. This new volume includes a four-part story, "The Wolf at Susan's Door," and a two-part story, "Mrs. Lathrop's Love Affairs."

TUMORS CONQUERED

SERIOUS OPERATIONS AVOIDED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in the Case of Mrs. Fannie D. Fox.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

The growth of a tumor is so sly that frequently its presence is not suspected until it is far advanced.

Mrs. Fannie D. Fox

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by profuse monthly periods, accompanied by unusual pain, from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, secure a bottle of Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice if you will write her about yourself. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

Dear Mrs. Pinkham:—

"I take the liberty to congratulate you on the success I have had with your wonderful medicine. Eighteen months ago my periods stopped. Shortly after I felt so badly that I submitted to a thorough examination by a physician and was told that I had a tumor and would have to undergo an operation.

"Soon after I read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed the tumor is entirely gone. I have been examined by a physician and he says I have no signs of a tumor now. It has also brought my periods around once more, and I am entirely well."—Fannie D. Endless Chain of Prayer

Someone has been sending around through Southern Maryland a prayer upon the principle of the endless chain. The person receiving it is to read it, make copies and send them through the mail to nine other persons. Here is the prayer:

O Lord Jesus Christ, we implore you. O Eternal Holiness, have mercy on all mankind. Purify us from all sin by your precious blood and take us to be with you eternally. Amen.

O Jesus Christ we implore you. O Eternal Lord, have mercy upon us and ours. Deliver us from all evil through your precious blood. Amen.

The prayer is accompanied by the following:

At Jerusalem during holy mass a voice was heard to say: "They who write this prayer shall be delivered from every calamity." This prayer was sent from Bishop Lenoire, recommending it to be sent to nine persons. They who do not write this prayer shall be affected by a great calamity. One who paid inattention to it was punished by an accident. They who write this prayer and deliver it to nine persons for nine days through the mail, beginning the day they receive it, sending one copy each day, will receive great joy after nine days.

Many superstitious persons of both colors are greatly agitated and alarmed at receiving copies of the prayer. A colored minister of Calvert county says his flock is greatly excited over the prayer, fearing some great calamity is upon hem.

A Miraculous Cure.

The following statement, by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1.00 at E. S. Leadbeater & Sons' drug store.

You cannot induce a lower animal to et heartily when not feeling well. A sick dog starves himself, and gets well. The stomach, once overworked, must have rest the same as your feet or eyes. You don't have to starve to rest your stomach. KODOL FOR DYSPEPSIA takes up the work for your stomach, digests what you eat and gives it a rest. Puts it back in condition again. You can't feel good with disordered stomach. Try Kodol. Sold by W. F. Creighton & Co., 401 King street.

PROPOSALS.

AN ORDINANCE to provide for the granting by the City Council of Alexandria, to the person or corporation hereafter to be ascertained in the manner prescribed by law, of the right to furnish electricity for light, heat, power and any other general purpose to the City of Alexandria and inhabitants thereof, and to erect, construct and maintain the necessary poles and fixtures and to run wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

Section 1. That there shall be granted in the manner prescribed in an act of the General Assembly of Virginia, approved May 20, 1903, the rights and privileges on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, which are embodied in the following draft of an ordinance:

An Ordinance to grant the right to ——— ———, its successors and assigns, to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria and inhabitants thereof, and to erect, construct, and maintain the necessary poles and fixtures, and to run wires on, over, under and along the streets, public alleys, bridges, parks, and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

1. That ——— ———, its successors and assigns, be and they are hereby granted the right to furnish electricity for light, heat, power and any other general purposes to the City of Alexandria, and the inhabitants thereof, for a period of thirty years, and for the purpose of furnishing and supplying electricity for light, heat, power, and other general purposes they are hereby granted the use of the streets, highways and other public ways and places of said City, and are authorized to erect, construct, and maintain the necessary poles, fixtures, and other essential apparatus, to construct and maintain conduits, and to run and maintain wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, in order to furnish and supply electricity for light, heat, power and other general purposes to the City or to the inhabitants thereof, upon the conditions, provisions and limitations hereinafter set forth, as well as under these set forth in such ordinances of the City of Alexandria, as may be applicable thereto, and as are not in conflict with this ordinance and the amendments heretofore made or which may be hereafter made to such ordinances.

2. Each route shall be first determined upon by the City Engineer before any poles are erected, and the Committee on Streets may require the said ——— ———, its successors or assigns, to use and occupy the poles already erected by any person or corporation before the running of wires along such route, provided that the City Engineer first deliver to the said ——— ———, its successors or assigns, permission in writing from the owners of such poles already erected, to run and maintain other wires thereon, at reasonable rates to be fixed by agreement or arbitration. All wires run and all work done in pursuance of this ordinance shall be done in a good workman like manner and of material suitable for the purpose, at the time the work is executed, and shall be approved as such by the City Engineer.

3. The rights and privileges hereby granted shall continue for thirty years unless sooner forfeited as herein provided for, and upon the termination or forfeiture of this grant the entire plant, as well as the property of said ——— ———, its successors or assigns, located in the streets, public alleys, or other public places in the city, shall become the property of the City Council of Alexandria, upon the payment to the said ——— ———, its successors or assigns, by the City Council of Alexandria, of a fair cash valuation of said entire plant and property, but the said ——— ——— shall be entitled to no compensation by reason of the value of the franchise hereby granted. In the event of the City Council of Alexandria and the said ——— ———, its successor or assigns, being unable at least six months prior to the termination of this grant, or within thirty days after the forfeiture thereof, to agree upon a fair and just cash valuation of said plant and property, then and in that event, such valuation shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said ——— ———, its successors or assigns, and the third (in case of disagreement by such arbitrators) by these two arbitrators, or, in the event of the the two so chosen being unable, within twenty days after the date of the appointment of whichever of the two was last appointed, to agree upon a valuation, or failing that to agree upon a third arbitrator, the third arbitrator shall be appointed, by the then Judge of the Sixteenth Judicial Circuit of the State of Virginia, and the three arbitrators so appointed, shall proceed to establish a fair cash valuation of said plant and propertys excluding the value of or any compensation for the franchise hereby granted, and upon the payment of the amount so established and fixed to the said — —, its successors or assigns, by City Council of Alexandria, the said plant and property shall thereupon vest absolutely in the City Council of Alexandria, and any expense incurred for compensation for the three arbitrators so appointed, shall be borne by the said ———, its successors or assigns, and the said City Council of Alexandria, equally.

4. The City Council of Alexandria expressly reserves the right to impose other reasonable regulations, conditions and requirements upon the said ——— ———, its successors or assigns and to pass such other ordinances as may be necessary to secure efficiency of public service by said ——— ———, its successors or assigns, at reasonable rates, and to compel the said ——— ———, its successors or assigns, to maintain said plant and property of the said ——— ——— in good order throughout the term of this grant; and it is hereby expressly provided that for a failure to comply with any material provision of this ordinance or of any such regulation, condition, requirement or other ordinance, this ordinance may be declared forfeited by said City Council of Alexandria, and be repealed, and the franchise hereby granted be declared to be at an end, provided always that any such failure shall not have been made good by the said ——— ———, its successors or assigns, within ninety days after written notification of such failure to said ——— ———, its successors or assigns, provided always that any such failure resulting from the act of God, public enemy, strikes at home or abroad or from any other unavoidable accidents or events, shall not be deemed a ground for declaring the franchise, rights and privileges hereby granted repealed, forfeited or at an end.

And it is further provided that should the said ——— ———, its successors or assigns, be compelled by virtue of any state or municipal law or ordinance to place its or their conductors or any portion or portions thereof under ground, that the City Council of Alexandria shall provide, at its own expense, the trench or trenches necessary for the burying of such conductors, said City Council bearing the entire expense and responsibility incident to the opening and closing of such trench or trenches and the proper relaying of the pavement thereby disturbed, and said ——— ———, its successors or assigns, bearing the entire expense incident of the furnishing and placing within such trench or trenches or the underground conductors and conduits so required.

5. For failure to comply with any material requirement of this ordinance the said ——— ———, its successor or assigns, shall be liable to a fine of not less than ten nor more than one hundred dollars for each offense, each day's failure to be a separate offense, said fine to be collected as other fines are collected and paid into the city treasury. The imposition of any fine under this section shall not prevent a forfeiture under the foregoing section.

6. That the said ——— ———, its successors or assigns, in the equipment of the poles, wires, fixtures or other works will use such appliances as are best designed to prevent injury by electrolysis to the water and gas mains and pipes or other public improvements of the city, and will pay to the City Council all damages to gas mains and pipes occasioned by electrolysis caused by the failure to use such appliances and will also indemnify and save harmless the City Council from all claims of damages occasioned to person or property growing out of injury from the failure to use such appliances. (a) That said ——— ———, its successors or assigns, will, within six months from the date of approval by the Mayor of the city of Alexandria, the final ordinance granting the privileges herein contained, begin to construct the work hereby authorized, as herein agreed, and fully complete the same within twelve months after the approval of said ordinance.

(c) That said ——— ———, its successors or assigns, shall, before commencing work under the provisions of this ordinance, execute a bond with security to be approved by a majority of the Finance Committee of the City Council of Alexandria, in the penal sum of ten thousand dollars, conditioned upon the faithful construction and putting into operation, within the time prescribed, and for the proper maintenance and operation of the plant and works necessary to secure efficiency of public service, and to protect the City Council from damages arising from suits or otherwise, for which said——— ———, its successors or assigns, are responsible.

Section 2. That upon the approval of this ordinance by the Mayor of the City of Alexandria, it shall be the duty of the Clerk of the City Council to cause to be advertised once a week for four successive weeks, in a newspaper published in the City of Alexandria, a draft of the ordinance contained in the foregoing section, and in addition, he shall, in such advertisement, invite bids for the franchise, privileges and rights proposed to be granted in the proposed ordinance, and also for the present electric plant of the city. The costs of this advertisement shall be reimbursed to the City Council of Alexandria by the person or corporation to whom the grant of this franchise is finally made.

The City Council will reserve the right to reject any and all bids. Every bidder will be required to file with his bid a certified check for five hundred dollars, payable to the order of the City Council of Alexandria, which certified check will be returned to said bidder on the rejection of his bid, or, if his bid be accepted and the above franchise awarded him, said certified check will be returned on the delivery to the City Council of the bond mentioned in sub-section of Section C of section 8, above.

The bids are to be delivered to the presiding officer of the Common Council of the City of Alexandria, at the day and hour of the next regular session of said body in open session to be held next after such advertisement shall be completed, which bids, by said presiding officer, shall be then and there presented to the City Council, to be dealt with and acted on in the mode prescribed by law.

Notice to City Tax Payers.

Collector's Office, June 16, 1906.

Notice is hereby given that the tax bills for 1906, are now in the hands of the collector. The attention of parties interested is respectfully called to the following extract from the revenue bill of this year:

"Upon all bills paid in full by the 1st day of July, 1906, the collector of taxes shall allow a discount of ten per cent., and on all bills paid by the 1st of September, 1906, he shall allow a discount of five per cent, and on all bills not paid by the first day of December, 1906, there shall be assessed and collected a penalty of five per cent upon the amount of said bills, and on all bills remaining unpaid on the 1st day of June, 1907, damages at the rate of six per centum per annum shall be paid."

Tax payers would do well to call and pay at once in order to avoid the rush and crowd usually present on the last days in which the discount is allowed.

Bring a list to make sure you get bills for all your property, as the collector will not be responsible or allow the discount after the time fixed by law.
